

# Online DVR Scheduling

## Schedule timers online using DishONLINE.com

By accessing the **My DVR** link through [www.DishONLINE.com](http://www.DishONLINE.com), schedule DVR timers while away from home on your Internet-connected ViP612 DVRs, ViP622 DVRs, and ViP722 DVRs, and future ViP-series DVR receivers.

### INTRODUCTION

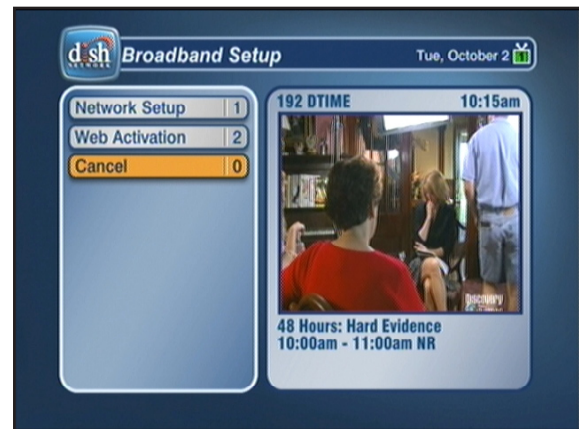

- On this web page, view the list of their currently scheduled timers, the receiver's Daily Schedule, and the list of previously-recorded programs (My Recordings list).
- To get started, connect your receiver to your home's broadband Internet connection. Then, setup an account through DishONLINE.com. Finally, setup the receiver using the Web Activation screen.

### SETTING UP AN ACCOUNT

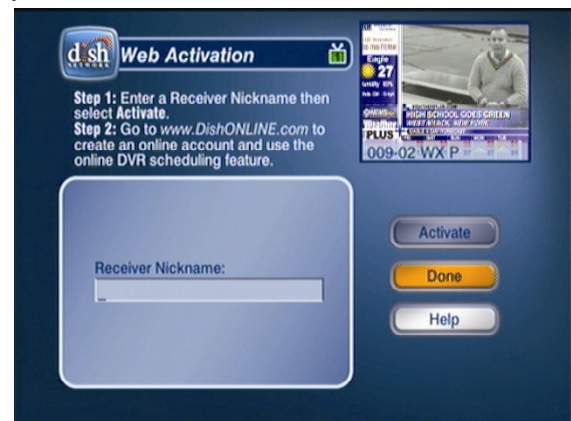

1. Go to [www.DishONLINE.com](http://www.DishONLINE.com).
2. Create a membership by clicking **Join Now**.  
**Note:** If you already have a DishONLINE.com membership, make sure you've added your DISH Network Account Number to your DishONLINE.com account. To check this, login to DishONLINE.com, click **My Account**, select **Change Preference**, then click **Verify** to add or change your DISH Network Account Number.
3. Enter the requested information to set up an account, including your 16-digit DISH Network Account Number. Be sure to click the **Enter and Verify** button to enter the account number.
4. Follow the instructions in the welcome email to complete your DishONLINE.com registration.

### SETTING UP THE RECEIVER

1. Using the receiver's remote control, press **MENU**, select **System Setup**, **Installation**, **Broadband Setup**, then **Web Activation**.

2. Using the remote control's alphanumeric keypad, enter a Receiver Nickname.
3. Select **Activate** to connect your receiver to your DishONLINE.com account.

4. You can now login to [www.DishONLINE.com](http://www.DishONLINE.com) to manage your compatible DISH Network DVR while away from home.

# Online DVR Scheduling

## Schedule timers online using DishONLINE.com

Now that you've got your DishONLINE.com account created and your compatible DISH Network receiver is setup, use the steps below to create timers online using DishONLINE.com.

### SCHEDULING TIMERS USING DishONLINE.COM

1. Login to DishONLINE.com and select My DVR to see your Internet-connected receiver's Program Guide.
2. Select your Receiver's Nickname from the dropdown list.

3. Select a future event in the online Program Guide. You can also search for programs using the Search box above the Program Guide. The Create Timer popup displays with similar options to the receiver's Create Timer popup.
4. Choose the desired settings for the timer.

OPTIONS	PRIORITIES	
Type: <input type="text" value="DVR"/>	<input type="button" value="↑"/>	1 Dish Who wants to be a
Frequency: <input type="text" value="All Episodes"/>	<input type="button" value="↓"/>	1 Dish Who wants to be a
<input type="checkbox"/> Protect Event	<input type="button" value="↑ Top"/>	2 All NBC Nightly News
Start Early: <input type="text" value="1"/> Minute:	<input type="button" value="↓ Last"/>	
End Late: <input type="text" value="3"/> Minute:		
Maximum Recorded Events: <input type="text" value="Inf"/>		

5. Select **Save**. The receiver's Daily Schedule is checked for timer conflicts. If there are no conflicts, the timer icon appears in the online Program Guide. If there is a conflict with an existing timer, the Timer Conflict popup appears, allowing you to raise the priority of the new timer, or let the existing timer continue.

### ADDITIONAL DVR MANAGEMENT OPTIONS ON DishONLINE.COM

- The online **Daily Schedule** displays the receiver's Daily Schedule list, allowing you to view the events that will be recorded that day, and skip or restore events.
- The online **Timers List** displays the receiver's Timers List, allowing you to view all timers, and protect or delete timers.
- The online **My Recordings** list displays the receiver's My Recordings List, allowing you to delete programs.  
**Note:** Programs stored on the receiver cannot be viewed using DishONLINE.com.
- Select an event scheduled to be skipped from the Program Guide or Daily Schedule and restore by unchecking the "Skip" box.

### PROGRAM LIST ICONS

-  Program will record on TV1.
-  Program will record on TV2.
-  Program will be skipped.
-  Program has been scheduled through DishONLINE.com, but not confirmed.

### CONSIDERATIONS

- The ViP-series DVR must be connected to the home's broadband Internet connection.
- Allow at least one minute for DishONLINE.com to communicate new timer information to the receiver.
- The My DVR link on DishONLINE.com is only available to Internet-connected compatible DISH Network receivers that have been activated using the *Setting Up the Receiver* steps.
